FINALLY YOU CAN AFFORD TO GO 100% ORGANIC

DOES YOUR FAMILY WANT AFFORDABLE, PESTICIDE FREE, FRUIT AND VEGE EACH WEEK?

MY ORGANIC SCHOOL is transforming the health of school families by finally making organic affordable. We harness the buying power of a community by helping school parents run organic vege box buying groups at their school. We call these groups REAL FOOD COMMUNITIES.

MY ORGANIC SCHOOL is a full-loop nutritional change initiative. The purchase of vege boxes funds the installation of school vege beds and the running of school healthy eating classes.

ORGANIC UP TO 50% CHEAPER THAN RETAIL

The cost of organic is greatly reduced by parents working together to divvy the produce into boxes at school. Every member receives a \$50 weekly, mixed, organic fruit and vege box. The produce is up to 50% cheaper than retail.

CHILDREN'S TOXIC EXPOSURE

Chemical free produce is our children's birth right. The prevalence of children's developmental and learning difficulties has mirrored increased agricultural pesticide use & food additives. The best way to protect our children is to ensure they are eating plenty of fresh, chemical free fruit & vegetables. However organic has been prohibitively expensive...until now.

REAL FOOD COMMUNITIES.

The veges are divvyed up one day per week after school. Parents are rostered once per month and complete the boxing up of produce in 30-45min. The process is fun, children love helping and everyone feels more connected to their food. Healthy recipes are emailed out each week making use of the box ingredients. Parents who can't help with the divvy can assist in other ways like helping out in the school vege gardens. Healthy eating classes are taught to students around the vege beds that the program funds.

EASTERN SUBURBS SCHOOLS ROLL OUT.

After having huge success at Bronte Public School we are rolling out stage one of the program in Sydney's Eastern Suburb Schools and looking for parents from these schools to register their interest on our site WWW.MYORGANICSCHOOL.COM

Eastern Suburbs Stage One roll out schools:

Bondi Beach Public School, Bondi Public School, Covelly Public School, Rose Bay Public School, Bellevue Hill Public School, Double Bay Public School,

Glenmore Road Public School, Darlinghurst Public School, Paddington Public School, South Coogee Public School, Randwick Public School, Woollahra Public School.

HUGE SUCCESS AT BRONTE PUBLIC SCHOOL.

Bronte Public School has 50 families signed up to the program and has saved money to build interactive raised vege beds at the school. The program's healthy eating classes connects students to the source of their food creating lasting nutritional change. Let us help you start a REAL FOOD COMMUNITY at your school.
